

The approval of **spermidineLIFE®** has made human research possible. To date, it has been used in 8 clinical trials.

The product is manufactured in Austria using a specially developed extraction process and is subject to several quality tests.

spermidineLIFE® is the global market leader and the world's only, officially approved spermidine preparation (Novel Food in the EU).

The natural **CelVio Complex®** in **spermidineLIFE®** is unique. Besides spermidine, it contains other polyamines (e.g. spermine), healthy fats, vitamins and minerals.

spermidineLIFE® is extracted from non-genetically modified wheat germ from Central Europe.
